All the crafts make an excellent activity to do with your teens and tweens; in addition, seasoned crafters will enjoy these patterns as well. I have 2 teen granddaughters that love to craft and these are easy enough that I can join in. I especially liked the Snoots Friends Softies, created by Susan Layman. They were easy to make and so cute, everyone loves them. The book itself is also very well made with great pictures and easy to read clear patterns. I would highly recommend this book to all existing and want-to-be crafters.3 of 3 people found the following review helpful.
