Eric Burdett : Craft of Bookbinding: A Practical Handbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Craft of Bookbinding: A Practical Handbook:

0 of 0 people found the following review helpful. Wonderful Book on Craft of BookbindingBy J. P. McConnelThe Craft of Bookbinding is filled with an amazing amount of excellent information and well illustrated regarding techniques for selecting and preparing materials, sewing signatures, forwarding, covering, etc. A thorough discussion of workshop tools illustrates the pedagogical approach of explaining tools and materials followed by discussion of technique. The color plates in the finishing section alone are beautiful and almost worth the price of the book. This book summarizes in one volume information spread across many volumes in my collection of books on binding. Definitely this is a go to guide on binding. By-the-way, the firm I acquired the book from prepared the book for shipment in a superb fashion and shipped it in five days; the book is in like new condition, published in Great Britain in 1983.1 of 1 people found the following review helpful. Craft of Bookbinding: A Practical HandbookBy repafamIf you have any interest in learning bookbinding and don't want to spend months at workshops or the money to attend them, this is the book for you. It is clear in most respects (check out utube for some excellent videos of sewing techniques for clarification)and offers helpful hints. I have a large number of book on bookbinding, and this one is among the best.1 of 1 people found the following review helpful. Personally I had no idea that there was a craft ...By nopeBrotherPersonally I had no idea that there was a craft to bookbinding, but hey, I saved overhead by binding my own book. Dolla Dolla bills ya'll

First edition. With many plates including some in color. Brenni no.45 . Excellent manual. Lacks dust jacket. In a solid rebinding. 400 pages. cloth. 8vo..
