Janet Storey : Creating Decorative Fabrics in 1/12 Scale before purchasing it in order to gage whether or not it would be worth my time, and all praised Creating Decorative Fabrics in 1/12 Scale:

A noted textile expert passes on her skills and experience to you in this practical introduction to all of the techniques used in applying textiles to miniatures-a few very old and a few new. Experiment with producing strong, bright colors with natural dyes such as madder powder (brown, red, orange), cochineal (red, purple, pink), and onion skin (orange, yellow). Apply color and surface decoration on fabrics using dye pens, ink stamps, silk paints, and even children's wax crayons. Upholster your miniature furniture in plush devor velvet to add a rich look, or create a patchwork quilt for a folk art inspired motif. Tackle the art of decorative accent beading by mastering the artistry of Victorian tambour

embroidery. Beautifully illustrated full-color photographs show you how.
