Cheri Saffiote, Grace Taormina, Anne Snuggs, Kelly Henderson : Creative Ribbon Crafting before purchasing it in order to gage whether or not it would be worth my time, and all praised Creative Ribbon Crafting:

2 of 2 people found the following review helpful. Put Ribbons Everywhere!By A CustomerThe projects in this book were created by some of the top crafters in the industry today. I have made many of the projects and applied their techniques to many more. The directions are clear, concise, and easy to read. The styles range from primitive country, Asian, to sophisticated elegance. Decorate pillows, spruce up plain candles, send unique greeting cards, and create beautifully decorated journals. There are charming beginner projects as well as some for the advanced crafter. I'd recommend this book to anyone!

This collection of ribbon work projects uses a variety of techniques, demonstrating how to tie, knot, sew, press, dye and transfer ribbons for gifts and decorations. It features cut-out patterns, illustrations and information on tools, and

explains 20 easy embroidery stitches with diagrams. There are ribbon designs for pillows, magnets, bags, quilts, towels, baskets, pots, candles, coats, cards and more.
