Kylie Minogue : Kylie Fashion before purchasing it in order to gage whether or not it would be worth my time, and all praised Kylie Fashion:

The book is page after page of full color images of Kylie in her many sexy and glamorous outfits over the years. There are both familiar images and new images that are presented in chronological order from her Locomotion video to the present. Photos are pulled from video shoots, magazines, calendars, cd covers, live shows and more. Even if you think you've seen it all there is fresh imagery to look at. This is very thorough and the emphasis is on fashion so most of the comments relate to the clothes and styling. A big plus is that this is not a design-y type book in the layout (like la-la-la) which is good because the photos are the main star here presented in a clean way. There are a few concept sketches of some costumes but mostly its photo after photo. If you like looking at Kylie's costumes and fashions then you cannot go wrong with this book. What a fun way to look back at all of those sexy images from past to present.

Highly recommended and worth every penny. 8 of 8 people found the following review helpful. Kylie Fans MUST HAVE THIS!!! By ArtiztikFoto This is a gorgeous "coffee table" anthology packed with beautiful photography documenting Kylie's influence on fashion and beauty, including her most elaborate stage costumes and commercial dancewear and lingerie. Top quality printing and book binding, this is a large volume with just enough text to explain the lavish photos, biographical details and backstage production. Fans of Kylie, Pop Culture, Fashion and Glamour will all treasure this!!! 1 of 1 people found the following review helpful. I'm in love whooop! By XlectroStatic I converted to Minoguism somewhere around 2005-2006, The Ultimate Kylie / Showgirl era. The 'Showgirl: The Greatest Hits Tour' was in fact my first Kylie show I saw on DVD and completely fell in love with Kylie. I was blinded and drawn by the lights, the colours, the costumes (the blue Showgirl gown!!!)... And then, my first very Kylie album came to me from the Bardot-esque, rock glam coquette Body Language era. And in spite to the general reviews, in my opinion it's one of her best albums, both visually and musically. What struck me the most of both eras, was how coherent and strong the visuals and fashion were and from there, I started making my way through her back catalogue. This cannot simply be attained, without falling in love with Kylie's collaboration with the world's top renowned and unknown fashion designers and the book does a good job in documenting her growth in the biz. From her soap opera princess days to becoming the amazing pop star and fashion goddess that she is, the book takes you along Kylie's evolution in music and in her personal development and seeing how she became more comfortable with herself and blossomed with her own style. Love every picture on it and here's to the next #K25!!! Whoop!!!

Besides being an award-winning musical hit-maker, Kylie Minogue is a true fashion icon whose daring and love of self-reinvention have kept her current twenty-five years into her career. In *Kylie Fashion*, the star herself presents the first ever showcase of her phenomenal fashion history with the most iconic designers in the world. This feast of fashion includes an Introduction by the legendary Jean-Paul Gaultier and commentary from the likes of Dolce Gabbana and Karl Lagerfeld. Packed with awe-inspiring images including the very best rare and unseen archival photography, video outtakes, fashion sketches, red carpet shots, and ephemera from Kylie's archives, this book captures the cultural icon, trendsetter, and *Vogue* cover girl in all her guises.
