Yoko Suzuki : Laceworks before purchasing it in order to gage whether or not it would be worth my time, and all praised Laceworks:

5 of 5 people found the following review helpful. Beautiful projectsBy CraftStitchThis book has some amazing lace doilies, many in the style of Irish crochet. Be forewarned, however, that all are worked from a chart. There are written instructions, but they explain the chart; there is no written pattern. I've never worked from a chart so initially I was a little hesitant, but the charts and the instructions do make sense. In addition to the doilies there are a couple larger table toppers, a small handbag, some sachets and a couple pieces to frame as artwork. Majority of the patterns are doilies though. Would definitely recommend for someone looking for a challenge and some very unique pieces.2 of 2 people found the following review helpful. Five StarsBy EdgarRiceBorroughsJust GORGEOUS patterns!!0 of 0 people found the following review helpful. Unique patternsBy CustomerVery nice book, several unique designs.

Beautiful crochet lace patterns. Charts and color photos of examples.
