I have used this book to create individual alphabet books for students, which they enjoy making and then sharing with their parents. Full of creative, fun ideas for letter learning and corresponding art projects. It gives ideas for both quick and more involved projects for each letter. Makes for a nice classroom display on bulletin boards before adding to their

books. I've used this successfully with 4-6 year-old children.0 of 0 people found the following review helpful. Five StarsBy Margaret McKinneyI love this book! Children learn a new letter each week by creating letter-based art projects that they add to their own take-home alphabet books. Includes lessons that build letter recognition and phonemic awareness, letter templates, and super-fun activities from A to Z. For use with Grades PreK-1.
