**Aakash Verma : Let's design a happy world: Powered by the 5 elements of nature** before purchasing it in order to gage whether or not it would be worth my time, and all praised Let's design a happy world: Powered by the 5 elements of nature:

'Lets Design a Happy World' is a playful activity book inviting you to draw, colour, think, create, write and much more. Graphically inspired by the Indian Bundeli folk art, this book is standing to be a support in your quest to Be the change you wish to see in the world. Every page of the book unfolds 26 global issues embodied by the 26 letters of the narrative 'The New World Alphabets' where every alphabet stands for a cause you will be invited to fight for. So, take your pens, pencils and colours and get ready to follow Bindi on a colorful journey of enlightenment.

About the Author Aakash Verma is an (m)adman who left his job to discover his love for graphic novels. He was born in the historic city of Jhansi in the Bundelkhand region of India, from where he derives his inspiration to combine folk art and contemporary Graphic and type design. He is an avid traveler and shuttles his home between Delhi and Paris. Leave a word to him @ [aakash.verma@gmail.com](mailto:aakash.verma@gmail.com)
