So Many Adorable Patterns To Choose From, I Can't Decide Which to Do First!By Hello NanaI haven't made any of the projects yet, but I've read through the directions, and I don't foresee any issues at all. They're well written, easily converted to American products, and so adorable that I can't wait until I can find some time to use it!The number of patterns is staggering. Each main project has so many accessories that one can make to really create a magical world!I did see that an American version is available for preorder - if you prefer, order that one. I couldn't wait and I'm glad I didn't because I pick this up and read a new section every chance I get. It's got me so excited about making these for my granddaughter. I just need time and the ability to decide which one first!1 of 1 people found the following review helpful. Yes, it is geared a little more for beginners, but the challenge comes in constructing the items. Sometimes it is fun to zone out with a simple and quick project that does not require a lot of counting or complicated stitches to concentrate on. I will be starting the camper here shortly (have to finish my current project first), but I cannot wait! My daughter (4) is so excited to play in the camper with her Lego-sized people. Don't pass this one up.5 of 6 people found the following review helpful. I am living and traveling in a camper/caravan so this project is especially fun. far I am feeling confident about crocheting! I am living and traveling in a camper/caravan so this project is especially fun. I am in the US and here's what I am using: Grace by Patons which is a mercerized cotton.; tacky glue for construction; sugar cream cotton for interior accessories. I will be consulting the author's errata page because I can't figure out how and when to attach the front but other than that the directions have been excellent. Thank you, Kate Bruning for getting me crocheting at last!
