The designs are all hand-drawn which adds to the enjoyment. I can be a little more free in how I color these designs as they are not computer-generated exact match quadrants of designs. If I want to make a slight error I can generally mask it as part of my design plan. I also find that hand-drawn designs, such as these, really inspire me to try new ways of looking at mandalas. I suddenly realized that I wanted to color a gray scale into a design after studying one of these. I really enjoyed that process and experiment and will probably do more of it in the future. The designs are really open and easy to color. They are projects that I can finish in one evening. I also think this is a great book for beginners and for anyone who might find more traditional and intricate mandala designs too difficult (maybe due to vision or fine motor skill issues.) The book is a smaller format book which cuts dead space away from the circular design of the mandala. I appreciate that as it makes it easier for me to frame my finished

project if I choose to do so and saves paper from being wasted. The designs are printed on one side of bright white non-perforated paper. The designs are centered well on the page and the print quality is excellent. The binding is glued rather than sewn, so you can cut pages out if you choose to do so. I was able to break the spine enough to get the book to lay fairly flat and it was easy to get to all parts of the design to color. Each of the designs has a framing line around them which is great if you are coloring a background for the mandala you get a natural stopping point instead of having to color to all edges of the page. All of my markers (water and alcohol-based, fine, ultra-fine, and brush end) bled through this paper. My India ink brush pen also bled through. My gel pens (all brands and nib sizes) all left a color shadow on the back of the page. My coloring pencils worked well for their lead type. The soft lead blended really well. The hard lead left indents at the page of the page if I pressed hard when coloring. All of these are non-issues for me because I place a piece of chipboard or card stock under the page I am working on and nothing mars the design on the following page. I will list, the comments section below, the coloring mediums I used in testing this book. I received a free sample of this coloring book for test and review purposes. 0 of 0 people found the following review helpful. loveBy Mrs Mommy Booknerd (Mrs Mommy Booknerds Book Reviews) #MMBBROK, so I may be a bit obsessed with coloring! I find it to be one of the best activities I can do to help myself relax!! It can be done everywhere. I color while waiting for appointments, while watching (rather listening to) TV or while my kids are busy playing Legos!! I have begun carrying coloring supplies with me...just in case there is time to color while out and about! DOODLE ART ALLEY BOOKS are my absolute FAVORITE coloring books EVER! I just love everything about them! I love the quotes, the detail, the designs and the size! I use them as inspiration quotes on the bathroom mirror for my kids (and myself) to see each morning. I switch the pictures out from time to time to keep things fresh. The boys think that is a great way to start their day! I use these pictures as thank you cards and for other occasions that would constitute a greeting card. I feel that this is such a more personal way to let people know that you are thinking of them!!! In addition to the practical purposes of the finished product the actual process of coloring it both relaxing and therapeutic! I make sure to set aside 20 minutes nearly daily for coloring and I feel so much better when I get my time in! I think there is something very wonderful that happens when you color and I found that is it one of my favorite things to do!!! This whole series of books are all wonderful and each book focuses on something a bit different than the others! All the books are awesome and I HIGHLY recommend them! I cannot wait to see what other books that come out and I hope I am lucky enough to review them here for all of you!!! 5 HUGE STARS!!! 0 of 0 people found the following review helpful. My favorite from this author so far. By DabOfDarkness This book features 50 images to color, each being a mandala of sorts. I really enjoyed the variety in the images and also the various levels of complexity. Each image is printed on its own page so you can later cut out the page and use the image for something else origami or maybe hang them as prayer flags or use them as little gift envelopes. The paper quality of this book was the same as Mistakes Are Proof That You Are Trying. The paper was thin and the pages tended to curl a little as I worked through it, tho I was using markers instead of colored pens. Sometimes my markers did bleed through to the next image. However, this didnt bother me much because this book was so much fun to work with. When I had a bleed through, I could usually pick a color on the to use on the second image that covered it up. I was gifted this book out of the blue last December while I was quite ill and the coloring was sometimes all I could do. In fact, I unexpectedly spent nearly a week in the hospital in January and this coloring book came with me. The nurses all enjoyed it as well and wanted to know where to pick up a copy. Mostly, I watch movies or listen to an audiobook while I color. I like to have my hands busy, but sometimes of late my abilities are limited. Having such an interesting coloring book definitely made my illness easier to bear.
