**paul jackson : Make It With Paper** before purchasing it in order to gage whether or not it would be worth my time, and all praised Make It With Paper:

0 of 0 people found the following review helpful. Four StarsBy NASEER UDDIN .KHANGreat buy3 of 3 people found the following review helpful. Useful and EnduringBy Cindy I ThinkI have owned this book for a long time and am considering buying more copies for a paper folding class I teach. It has a wide range of projects including making paper, making pop-ups, wrapping, papier mache, plus my favorite - a large section on origami. Some models I have not seen elsewhere and I own about 30 books covering all types of origami. The instructions are well done. It is my go to for teaching models over and over.

The complete guide to origami and papercraft.
