Jonathan Scott : Piranesi before purchasing it in order to gage whether or not it would be worth my time, and all praised Piranesi:

0 of 0 people found the following review helpful. Five StarsBy S. BoveIf you can find a copy, this is one of the great books in english on Piranesi. Detailed biographical text accompanied by hundreds of reproductions of his key works. Highly recommended for collectors and architectural/engraving historians.

This volume details Piranesi's work, from his "Vedute", which have preserved the decayed grandeur of papal Rome, to his exuberant schemes for furniture and interior design. The book is illustrated with over 250 of Piranesi's etchings.
