Richard Phethean : The Complete Potter: Throwing before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Complete Potter: Throwing:

0 of 0 people found the following review helpful. Excellent service from the seller By ChickyClear instruction for a beginner. Excellent service from the seller. 0 of 0 people found the following review helpful. Four Stars By CustomerA good, basic book 9 of 10 people found the following review helpful. The Complete Potter, Throwing By A Customer The book itself is not of quality binding, but the information contained within is. A good book for beginners and begin-again-ers. Processes are described step by step with excellent photos or line drawing examples.

This introductory text looks at the techniques of throwing in pottery. Beginning with a section on preparing clay, equipment and materials, the author shows, with a series of sequence photographs, how to use the potter's wheel to create a wide variety of functional and ornamental forms. Lastly, the book illustrates how to decorate and distort the thrown clay form. Examples of finished work are shown throughout.

"Examines the materials, equipment, and techniques needed for successful pottery throwing. Numerous color and bw photographs demonstrate techniques such as turning and ornamental detailing, and their application in making jugs, bowls, handles, teapots, lids, and curved-base pots. Emphasizes the importance of body position and control, and offers advanced techniques for pottery design, including surface decoration, distortion, and cutting and reassembling." Book News, Inc.
