Barbara Snook : The Craft of Florentine Embroidery (The Scribner library. Emblem editions) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Craft of Florentine Embroidery (The Scribner library. Emblem editions):

5 of 5 people found the following review helpful. Good for the beginnerBy Jane KwiecinskiThis book has a little bit of everything - history, designs, and projects. None of it is really special but it can't be faulted either. (Well, maybe it can be faulted for not specifying quantities of fiber or ground fabrics for its projects.) Most of the projects are small, get-your-feet-wet-type projects that could be completed in a weekend. There are only a few color pictures that are not next to their diagrams, but the diagrams are clear and easy to follow. Speaking of color, the author barely touches on shading and color selection. This is a nice general reference book.

The Craft Of Florentine Embroidery by Barbara Snook
