**Paul Siggins, Paul Cooper : The Mosaic Sourcebook: Projects, Designs, Motifs** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Mosaic Sourcebook: Projects, Designs, Motifs:

This sourcebook contains eight step-by-step projects, all of which can be completed in a weekend. The look throughout is clean and contemporary, and there are ideas for inside the home as well as outdoors. Projects are accompanied by a template and colour-code and two alternative, more complex designs for the more ambitious. They include a tabletop in African style, a silver mirror frame, and a kitsch vase made from smashed crockery. A supplementary section of miscellaneous motifs allows for experimentation with different patterns and shapes, to create

personal designs.
